Introduction

Connecting Kids to Coverage National Campaign materials are designed to support outreach in your community. These materials are intended to be used by Campaign partners, grantees, and other community-based organizations to provide information to parents and caregivers of children who are eligible for Medicaid and CHIP but are not enrolled. The materials provide information on income eligibility for Medicaid and the Children's Health Insurance Program (CHIP), the valuable benefits the programs provide (e.g., check-ups, hospital visits, emergency services, prescriptions, etc.), and how to apply.

You can customize the materials for use in your community. Customized materials can include:

- your program name(s);
- your state's annual income eligibility limit for a family of four;
- your website address and/or phone number;
- and up to two logos

Once confirmed, you will receive your customized, high resolution PDF via email within two weeks.

CMS offers material customization free of charge. However, due to the large number of customization requests we receive, organizations can request **up to five resources to customize per month**. This is per CMS Product Number (No.). An organization may request multiple languages per product number. For example, "Artist" palmcard, CMS Product No. 11642, in English and Spanish (-S) would count as one resource request.

Customizable materials are viewable on the InsureKidsNow.gov website in the [Outreach Toolkit Library](#). A list of customizable materials is also available on slide 5 of this guide.

Please see slide 9 for detailed information on how to submit your request for customized materials to the CMS Division of Multimedia Services (DMS).

Determine Your State's Income Eligibility Limit

Medicaid and CHIP use a percentage multiple to determine the income limit for a family of four at 200% of the Federal Poverty Level (FPL). To find the annual FPL figure, visit <https://aspe.hhs.gov/poverty-guidelines>.

To find the specific FPL guidelines for your state, visit <https://www.medicaid.gov/medicaid/program-information/medicaid-and-chip-eligibility-levels/index.html> or contact your state's Medicaid or CHIP program for information. The income level figure will change from year to year based on the annual release of FPL guidelines.
