

Connecting Kids to Coverage National Campaign

Dear [STATION CONTACT/PARTNER NAME],

Millions of uninsured children are eligible for Medicaid and CHIP!

Having high quality, affordable health coverage can mean the world to parents and their families. With health coverage, parents can rest easy knowing their children can receive the routine preventive care that keeps them healthy and the medical help they need if they get sick or injured.

Free and low-cost health insurance is available through Medicaid and the Children's Health Insurance Program (CHIP) and enrollment is open year-round; these programs have been instrumental in substantially reducing the percentage of uninsured children – with more than **38.5 million children covered**.

However, there are still a substantial number of children who remain without health coverage vulnerable to infectious disease, ill-prepared for an emergency or routine care. **Recent research** indicates that approximately 2.3 million uninsured children across the country are eligible for Medicaid and CHIP programs. Often, parents and caretakers are not aware that their children may be eligible for coverage.

Children in a family of four earning up to \$50,000* a year or more may qualify. Coverage includes:

- regular check-ups,
- immunizations,
- doctor and dentist visits,
- hospital care,
- mental health services,
- prescriptions, and more.

Help us **spread the word** about free or low-cost health insurance coverage!

We hope that you will use the enclosed public service announcements (PSAs) and inform families in your community about Medicaid and CHIP:
